// EDUCATION

[UC BERKELEY EXTENSION - FULL-STACK WEB DEVELOPMENT]

June 2020

- Full Certificate Program
- Top of class

[THE ART INSTITUTE OF CALIFORNIA - SAN DIEGO]

June 2014

- BS in Computer Science
- Outstanding Graduate
- Honor Roll

// WORK EXPERIENCE

[PLANETART – ASSOCIATE PRODUCTION MANAGER]

August 2019 – Present

- Creating the definition of best practices and processes for the Preview Production team
- Developing the most efficient naming conventions, file structures, and asset formatting
- Creating and managing a system that reuses universally flexible blank product assets, significantly cutting down production timelines
- Setting the standard by creating documentation and training material out of my personal workflow and time management style
- Various experimentation outside of current processes, constantly moving the needle forward with production timeframes and ease-of-life workflow methods
- Lead trainer for a team of Production Artists, regularly instilling additional best practices
- Inspection of Production work, to ensure all Preview Team standards are being met
- Task delegation based off the individual strengths and interests of my team, ensuring the highest level of quality in the shortest amount of time
- Efficient time management and constant communication between various team leads

[FTD COMPANIES – SCENE 7 PRODUCTION ARTIST]

June 2016 – August 2019

- Creation of web templates for real-time viewing of customized product
- Creating flexible and reusable blank assets
- Manipulation of product images through photo editing and URL script
- Manipulation of text to ensure a realistic feel and look in comparison to physical product
- Reworking InDesign and Illustrator files to appear accurately on Scene 7 vignettes
- Writing and maintaining back office workflow to enable functional previews on live site
- New hire trainer and direct contact
- Creating the standard documentation for all future employees, based off my own workflow and expertise, to ensure the highest level of productivity
- Manager and creator of an entire system overhaul, that cut production time for my entire team
- Activating new products and ensuring a final polish on product images
- Heavy attention to detail and quality assurance

[FREELANCE – GRAPHIC / FLYER DESIGNER]

February 2018 – May 2019

- Creating logos for 8 various weekly and monthly nightlife events in the Bay Area, and in Canada
- Complete event re-branding, which also adhered to what is expected at the location of the event
- Flyer layout and design template creation, to allow for seamless and recognizable imagery and typography per event, which occur under a specifically branded party
- Designing new and unique backgrounds and page effects weekly/ monthly
- In constant communication with the event leads to ensure new digital content meet expectations

[PLUTO VR - 3D ARTIST]

April 2015 - May 2016

- Creation of production ready 3D environments and character assets
- Unwrapping of meshes, and creation of both photo-realistic and hand-painted textures
- PBR materials, blend shapes, physics objects, environment animations, and particle effects
- Modeling and optimizing of all components for an Avatar Creator system
- Writing and adjusting material shaders, C# scripts, and CSS
- Strictly adhering to real-scale measurements and uniform pivots, while abiding by self-determined art direction
- Critical thinking, fast-paced problem solving, and administration of experimental prototypes
- Quality assurance, organization of source control files and naming conventions, and resolving product bugs
- Daily interaction with various VR headsets and relevant experiences
- Leader and task manager for 2015 internship

[NOKIA HERE - 3D PRODUCTION ARTIST]

September 2014 - March 2015

- Creation of next generation 3D map content
- Aligning lane-level accurate roads and 3D buildings to LiDAR point-cloud and panoramic imagery references
- Modeling terrain surfaces to match realistic topology
- Mastery of Nokia's proprietary in-house 3D map editing software
- Performing quality assurance, logging program errors, and recommending tool enhancements
- Contributing to regular communication with Project Manager and 3D prototyping production team
- Tracking metrics for production efficiency measurements and user time management
- Applying artistic judgment to ensure highest visual quality standards

[SONY ONLINE ENTERTAINMENT - INTERNSHIP / MENTORSHIP]

September 2013 - June 2014

- Asset creation with strict game engine requirements
- Hand-painted 2D diffuse, normal, and specular maps, and shader creation
- Optimizing and thoroughly polishing models to be production level read
- Creation of unique textures and adjustment of existing textures
- Adaptation of artistic style shift, on a per-task and daily basis
